Aqua Aero Sustainability Mission

Aqua Aero aims to participate in the global objectives to reduce VOC emissions, create a safe working environment, recyclable products and nonpoisonous discharge.

Product

Aqua Aero products are continuously innovated to achieve zero emissions at highest quality standards.

Workers and Surrounding Safety

We will formulate our products in such a way that the hazardous impact during processing is close to zero for the applicators and their surroundings.

Application and Waste

The application process and waste management recyclability will be innovated to achieve circularity of the Aqua Aero value added chain.

Coil Coating Selection

Aqua Aero customers select the proper corrosion protection based on the price, quality and ESH criteria, before, during and after application. Future developments will be based on continuous improvement of the footprint of our company and our customers. Aqua Aero will update the market with its efforts on a frequent basis. On the next page the current ESH baseline is described according to the data presented on the safety data sheets compared to available

General definition of a Safety Datasheet

A safety datasheet is a document created for substances or mixtures containing a wide range of information on the composition, physical, chemical, health and environmental effects of the coatings and on the safe usage, storage and disposal of the products. The knowledge of this information makes it possible for users or employers to take any measures which maintain the human, environmental and occupational safety.

GENERAL COIL COATING COMPARISON

	Aqua Aero Coil Coating <i>MSDS 4 Sept 2024</i>	Blygold Polual XT <i>MSDS 18 Feb 2021</i>	Heresite P413 <i>MSDS 02 Apr 2019</i>	Modine Insitu ES2 <i>MSDS 22 May 2017</i>
Flammability	No potential danger	 Flammable liquid and vapour.	 Highly flammable liquid and vapour.	No potential danger
Health Hazard	No potential danger	 May cause allergy or breathing difficulties. Suspected causes of cancer. May cause damage to organs.	 May cause drowsiness or dizziness. May cause cancer by inhalation of dust. May be fatal if swallowed and enters airway.	No potential danger
Hazard Warning	No potential danger	 Cause skin irritation. Cause serious eye irritation. May cause allergic skin reaction.	 Cause skin irritation. Cause serious eye irritation.	 Cause skin irritation. Cause serious eye irritation.
Environmental Warning	No potential danger	 Cause severe environmental damages once releases to the environment.	—	No potential danger
VOC Emission per ltr Direct Impact to Ozone Layer	0 g/l	489 g/l	338 g/l	41 g/l
